A party of gentlemen of this city have been enjoying the larger part of the week on a fishing tour at Honeycutt's **Mill**, in Harnett county. They were thoroughly equipped, having tents and all comforts which could be desired, and as to the fishing it was simply unsurpassed. The pond abounds in large "Jack," perch, red fin pike, chub and mullet, and they were taken with hook and line, seines and gill net. The party was a very congenial one and thoroughly enjoyed the trip, and all of them are indebted to Mr. Perrin **Honeycutt** for many courtesies shown them during their sojourn.
